via Beirut 6, Grignano Trieste**

Web: scifablab.ictp.it

OFFICIAL OPENING

Tuesday 12 August
2014
2:30 pm

ICTP Fermi Building
(ground floor)
via Beirut 6, Grignano
Trieste

The first FabLab being established in Friuli-Venezia-Giulia, the new ICTP Scientific Fabrication Laboratory aims to play a significant role as a hub to support the creative work of scientists and scholars from the region.

It will host projects in the fields of science, education and sustainable development, with the availability of modern and versatile computer-controlled rapid prototyping tools, such as 3D printers, 3D scanners, laser engraving and cutting machines.

The ICTP ScifabLab will also welcome guest projects, offering free access to the local community of Makers in the evenings/weekends.
